Special Edition - 14 March 2005

## Plans Have Changed Give Your View Now

New plans were added to the "black boxes" in the town library and Juniper House last Thursday. If this plan is approved, trees lining the Walks would be felled in two phases, with just over half felled soon and the remaining trees felled at least 15 years in the future.

The plan should ensure that some shelter remains along all Walks at all times. Some feel that too many healthy trees will still be felled. The Walks Action Group suggests everyone goes to look and sends comments direct to HLF.

The HLF decision date is confirmed as 22 March. Write to HLF, Kett House, Station Road, Cambridge as soon as possible. Email [eastofengland@hlf.org.uk](mailto:eastofengland@hlf.org.uk) or fax 01223 224 871.

## Kiosk Dates

The building works require planning permission. Some consider the kiosk ugly, wrongly sited and causing unnecessary tree loss. The decision is expected on 4 April at soonest.

## Petition Presented

The first part of the petition collected in the town centre around Christmas was presented at the council meeting on Thursday 24 February. MJ Ray thanked signatories and the councillors who had taken an active interest.

## A Walk in The Walks

On Sunday 20 March from 10am, there will be a sponsored walk in the Walks, starting from the entrance to Broad Walk by the town library. The event marks nationwide Brain Injury Awareness Week. The circuit is about a mile, with competitions and draws for those taking part. To receive an info pack, contact Headway chair Nikki Clare on 827458 or secretary Tina Timms on 810267.

### What Is Planned?

- The borough council currently plans to:
- fell trees lining the Walks paths, many in first two years of the project;
  - restore the Red Mount Chapel;
  - repair bridges and paths;
  - add two paths over the rec;
  - build park centre with cafe;
  - remove sports courts;
  - add mock-Victorian furniture.

Walks Action Group aims to avoid wholesale tree clearances. WAG supports restoration and repairs but some members want a better kiosk and sports facilities, in order to increase use of the Walks. Busy Walks are secure Walks and more use means more people, more staff and a healthier town.
